

Gain insight into the right data at the right time

Get the data and tools you need to manage your spend and control your budget with Intelligence by Concur.

Changes in technology are affecting every way you do business—including how you manage your corporate spend. Spend data now comes from multiple sources, effectively decentralizing a once very centralized part of your business. And as a result, tracking and managing spending is getting harder and harder.

With Concur's reporting solution, Intelligence, you can simplify your spend management process by consolidating your data from all your systems and directly from suppliers. We integrate and organise your data—travel, ERP, invoice and credit card feeds—into one, simple, easy-to-access place. And because Intelligence provides reports, dashboards, automated alerts and analytics targeted at the issues affecting your entire organisation, your managers and employees will get the information they need to control spending as it happens—or even before it happens.

View the metrics that matter to your company. Easy-to-use dashboards, reports and automated email alerts deliver a complete picture of your spend, so you can monitor trends, enforce policies and simplify your spend management.

Problem solve and save like never before

Gathering the right data and insight to make informed decisions that move your business forward isn't easy. With Intelligence by Concur, it can be.

One, connected solution

Intelligence makes introducing a reporting solution simple by easily integrating with Concur® Invoice, Travel and Expense and your other existing business systems—connecting what you already have for one view of your total spend.

Take control of your data with Intelligence

▶ A single source

- Use a simple solution to connect your spend data. See all your travel, ERP, invoice and credit card data at once, and receive instant access to the meaningful analytics you need to take action.
- Improve overall data accuracy. Eliminate data duplication and automatically match every transaction to every relevant data source.
- Use your data to create and enforce your policies. Visibility into unique spending patterns and buying behaviors help you track compliance.

▶ Data and insight delivered right to your inbox

- Design custom reports and dashboards to meet your company's unique requirements.
- Get budget-saving insight delivered right to your inbox by scheduling automatic delivery of reports and dashboards.
- Monitor corporate card spend and manage your budget with automated email alerts triggered by your internal policies.

▶ See the entire picture

- Increased visibility into travel booking and invoice data allows you to monitor and control spend before it hits your budget and negotiate with vendors to cut costs.
- Control your corporate card program with detailed reports on utilisation, rebates and other key metrics.
- Get detailed insight into your payment process so you can address key issues as they arise, reduce reimbursement times and even manage tax requirements.

Access your data, your way

View and manage spend before, during and after it occurs.

About Concur

Concur, a part of SAP, is the leading provider of spend management solutions and services in the world, helping companies of all sizes transform the way they manage spend so they can focus on what matters most. Through Concur's open platform, the entire travel and expense ecosystem of customers, suppliers, and developers can access and extend Concur's T&E cloud. Concur's systems adapt to individual employee preferences and scale to meet the needs of companies from small to large.
