

Reservations from across every booking channel now come into one system—yours.

So it's easier to manage every trip.

TripLink captures every reservation—no matter where your travellers go or how they book their trips—and brings them all into Concur.

With TripLink, you know where your people are, what they're spending, and how to manage your travel budget.

Drive savings into your T&E budget.

TripLink captures itineraries across every channel, so you can see the spending trends and buying behaviour that allow for more effective travel management.

Pay what you planned – When travellers book on a TripLink supplier's website, they'll see and save with your negotiated rates.

Support your duty of care obligation – Know the location of your travellers in emergencies, regardless of how or where they booked.

Negotiate better deals – Because you can see every dollar spent at every vendor, you can leverage all your spend to get the best deals possible.

Apply and enforce travel policy before the trip – See bookings no matter where they were booked, and keep travellers in policy before they go.

Improve traveller satisfaction and productivity – Travellers can manage all their travel plans in one place, and with Triplt Pro,² each of your travellers can have the perfect trip, every time.

About Concur

Concur, a part of SAP, is the leading provider of spend management solutions and services in the world, helping companies of all sizes transform the way they manage spend so they can focus on what matters most. Through Concur's open platform, the entire travel and expense ecosystem of customers, suppliers, and developers can access and extend Concur's T&E cloud. Concur's systems adapt to individual employee preferences and scale to meet the needs of companies from small to large.
